

## Bishop Bell on the radio

Bishop Bell pupils have been working really hard to put together a fantastic, energy filled radio show in preparation for Eastbourne Youth Radio. Nearly everything you hear between 1.00-2.00pm on Friday 14<sup>th</sup> November (87.7fm), will have been organised, written, recorded, edited and pulled together by the Year 10 Media group at Bishop Bell C of E School.

The opportunity to take part in EYR 2012 has been given to the Year 10 Media group by East Sussex Fire and Rescue who are sponsoring them. One of the students from the group commented; "It's really great that ESFRS are giving us this opportunity by sponsoring us". Another added, "It is good for us to have the chance to do things outside the school as part of our learning, and it feels nice to be part of an activity that just about every school in Eastbourne will be taking part in."

Planning for the program has been underway for some time, with interviews and a Teacher Quiz with a twist being planned. One member of the Year 10 group responsible for organising the quiz said; "Each teacher will be asked questions on a particular television programme that we are hoping they know very little about, we thought the boot should be on the other foot this time. Basically, the teacher that comes last will be responsible for doing a piece of homework for a student from the school. We intend to open this competition to the whole school, anyone can put their name in the box in Pupil Reception. The lucky winner will be drawn live on air."

Other features include a discussion with PC Wickens on Cyber-Bullying, we will showcase the school choir and band, as well as the usual selection of latest tunes, news and weather. Pupils are hoping that parents, staff and students alike will tune in on Wednesday to hear what promises to be a fantastic show. Headteacher, Mr Jewell, said "I will certainly be listening in. EYR is a great opportunity for the town's pupils to be involved in, and I am very grateful for the generous sponsorship of Eastbourne's Fire and Rescue Service in making that opportunity available to Bishop Bell."
